

# St Saviour's Catholic Primary and Nursery School

**Subject: Geography**

**Topic: The Seven Continents**

**Year: 1**

## What should I already know?

- The names and some characteristics of the four countries and capital cities of the United Kingdom.
- What an aerial view.
- The seasonal weather patterns in the United Kingdom.
- The simple compass directions (North, South, East and West) and locational and directional language such as near and far; left and right.

## What am I going to learn?

- Continents are large areas of land.
- We have seven continents on Earth.
- We have five oceans on Earth.
- We have five oceans on Earth. The oceans are important for all life on Earth. Humans can damage the oceans.
- The North Pole is located at the most northern point on Earth and the South Pole is located at the most southern point on Earth.
- The Equator is an imaginary line around the middle of the Earth.
- Antarctica is the most southern continent.
- Deserts, grassland and rainforest can be found in some continents around the world.
- We live in the continent of Europe.
- Europe is one of the smaller of the world's seven continents.

## Vocabulary

**Earth:** The planet we live on.

**Continents:** One of the world's seven areas of land.

**Oceans:** A very large area of water

**Globe:** a model of our earth showing the continents and oceans

**North Pole:** A very cold place at the 'top' of the Earth

**South Pole:** A very cold place at the 'bottom' of the Earth

**Equator:** An imaginary line around the middle of the Earth
